

Worcester Sept. 12 - '54

Mr. & Mrs. Garrison

186- Dear friends - We shall rely on your presence at our place on Friday next - Invitations have already been extended to several of our friends to meet you here. They seem much pleased with the prospect of a social interview. I thought a dozen would be about the number - But when one begins to make up a little company it is difficult to know where to stop - So the list on my roll, for this <sup>social</sup> party amounts to over forty - However, we are so far from town and as the invitation is to families, we may expect to see only about half that number if the day shall prove auspicious -

Mrs. G. will not, I trust, disappoint us. She is not from home so often but that she might, I <sup>think</sup> ~~trust~~, leave this once to gratify her Worcester friends.

I enclose this note to Wendell not knowing whether he has his mail sent to Milton or Boston. Will you have the kindness to forward it at your earliest convenience. It is a pressing invitation for him to be here on Friday next -

Please drop us a line informing us of the hour you will leave Boston that we may meet you at this

Yours very truly  
A. K. C.

Abby Kelley Foster
